African SAP User Group

AFRICAN SAP USER GROUP 2021

**Connect.
Create.
Collaborate.**

Vision

AFSUG's Vision is enabling each customer to realize the full benefits of SAP, by networking with like-minded peers. Challenges shared are no longer challenges but solutions that are effective.

Mission

AFSUG, alongside Global SAP User Groups sole mission is to provide a platform for the exchange of ideas, information, and experiences with Customers, Partners and the main Stakeholder SAP.

Values

Enabling SAP Customers a safe environment to share a journey, leading to reduced risk's on any future project but also be able to connect with the correct partners in implementing a solution. The most important value for AFSUG is that of the platform may not be used as "sales platform" but only to gain knowledge through customer success stories or partner's sharing new and easier tools, alongside SAP keeping all updated on current versions and road maps.

Vision

Mission

Values

The African SAP User Group (AFSUG) represents the SAP Customer and Partner community in allowing customers and partners to share stories of mutual interest in an environment that lends to influencing and collaboration for the community.

AFSUG is the only user group in Africa representing SAP but important to note, completely independent of SAP and is a Non-profit organization. Governed by a board of Customer CIO's who volunteer their time.

AFSUG host up to 10 SAP Special Interest Group's based on solutions that are offered by SAP including industry focused events throughout each year, visit our events calendar which is on our AFSUG Website – www.afsug.com.

Additionally, to the Special Interest Groups, we host a variety of webinars from speakers globally and locally and we host the biennial SAPHILA conference.

Benefits – why your organisation should pay annual membership?

- Knowledge sharing to reduce risks on current & new projects
- Access to Local & International SAP Experts
- Access to Webinars
- New Version Information, & the ability to influence future developments
- SAP Roadmaps updates
- Social Connections
- Real South African Case Studies
- Access to Customer Influence Program

Governance of AFSUG a Non-Profit Organisation independent of SAP

- The AFSUG Board is managed by a group of passionate Senior SAP Customers and Partners and an SAP representative.
- The AFSUG Board meets, every 2nd month to discuss in-depth as to how the office operates, events that were successful.
- Memberships – Value, Benefits and how to ensure Organisations wish to become members annually
- Strategically – setting out new goals and actions for the AFSUG operations office as well as encouraging volunteers to push forward to increase value for all members.

Special Interest Groups

AFSUG[®]
African SAP User Group

Special Interest Group Events (SIGs)

SIG's act as a forum for SAP Users to discuss issues with specific wins and challenges that each organisation and user may experience through a given journey into SAP Implementations.

SIG's allow users to benefit from other users' experiences in sharing best practice and other top tips on using SAP.

SIG's act as a platform from which to liaise with SAP on future developments, being the voice of the customer.

SIG's provide expert training at a fraction of the cost of that supplied by SAP Training, on request certificates of attendance are provided further to show each User's growth for an organisation.

SUGEN and how does SUGEN Support AFSUG and User Groups Globally

SUGEN

SAP User Group Executive Network

About SUGEN

SUGEN's mission is to be a powerful, international voice that unites regional SAP user groups in an open, honest dialogue between members and SAP that ultimately drives the market toward excellence, innovation, and success.

The charter of SUGEN is to be the global network of SAP user groups that provides a collective view of strategic issues that need to be addressed by SAP.

SUGEN's mission is to be a powerful, international voice that unites regional SAP User Groups in an open, honest dialogue between members and SAP that ultimately drives the market toward excellence, innovation, and success.

The charter of SUGEN is to be the global network of SAP User Groups that provides a collective view of strategic issues that need to be addressed by SAP.

The purpose of SUGEN is to create and sustain collaborative bodies that foster the sharing of information, expertise, and experience users and SAP cannot find anywhere else by:

- Identifying strategic priorities and acting on programs to advance and apply technology for the greatest gain of the SAP customer community
- Fostering international market views, including customers' short- and long-term demand drivers, major challenges, and business imperatives
- Guiding and inspiring SAP in delivering worldwide, aligned support for the mutual benefit of SAP User Groups and SAP
