Pioneering Progress: How the Private Sector Can
Unlock Africa's Digital and Societal Potential

SAP SE

SAPHILA 20
ASPIRE 23

The world faces a severe learning crisis

825_m

youth worldwide will
lack basic skills such as
math and reading by
2030

85_m

Will be the global
human talent shortage
by 2030

935_m

workers in the world have
jobs that don't match
their educational level

Africa's Digital and Societal Potential

60%

of Africa's inhabitants
under the age of 25

92%

of Africa's tech
investment is secured
by four countries
Nigeria, Egypt, Kenya
and South Africa

30_k

additional jobs in the
digital and green economy
in Senegal by 2035.

What we do

The background features a repeating pattern of colorful geometric shapes, including triangles and circles, in shades of blue, green, yellow, and pink. A large, light blue arrow points from the left side of the page towards the right, starting below the text and extending across most of the width of the slide.
